

LAKSHMI L

Java Full Stack Developer

+91 96862 40695 | lakshmi555@gmail.com | [linkedin.com/in/lakshmi-lj](https://www.linkedin.com/in/lakshmi-lj) | Bengaluru, India

PROFESSIONAL SUMMARY

- Seasoned **Java Full Stack Developer** with **5 years of hands-on experience** in architecting, developing, and maintaining scalable, secure, and high-performance enterprise applications.
- Extensive expertise in **Java (8–21)** with strong command over **object-oriented design principles, design patterns, and clean architecture**.
- Proven experience in building **microservices-based systems** using Spring Boot and RESTful APIs, ensuring modularity, scalability, and maintainability.
- Strong hands-on experience in developing **responsive, user-friendly front-end applications using React.js & Angular**, with seamless integration to backend microservices via REST APIs.
- Proficient in **state management, component-based architecture, and API integration** in React to deliver efficient and maintainable UI solutions.
- Strong background in implementing **secure authentication and authorization** using **Spring Security, JWT, and OAuth2**, with role-based access control.
- Demonstrated ability to **analyze, optimize, and refactor legacy codebases**, significantly improving performance, stability, and maintainability.
- Hands-on experience in **database design, schema optimization, query tuning, and indexing** using MySQL and PostgreSQL.
- Skilled in **end-to-end API lifecycle management**, including design, development, documentation, testing, and deployment.
- Extensive experience with **CI/CD pipelines using Jenkins**, enabling automated builds, testing, and deployments.
- Proficient in **containerization and orchestration concepts**, with practical experience deploying applications using **Docker**.
- Experience working in **AWS cloud environments**, including EC2, S3, and RDS, for scalable and reliable deployments.
- Strong understanding of **Linux/Unix environments**, shell scripting, and production support workflows.
- Proven ability to implement **scheduling, background processing, and automation** using Quartz Scheduler and Shell scripts.
- Experience integrating **third-party services, APIs, and enterprise systems** to improve system interoperability.
- Adept at **monitoring application health, logging, and system reliability**, contributing to high availability systems with **99% uptime**.
- Actively involved in **code reviews, performance tuning, and best practice enforcement** to maintain high engineering standards.

APPLICATION TOOLKIT

Category	Technologies
Programming Languages	Java (8–21), Shell Script, JavaScript, SQL
Frameworks & Libraries	Spring Boot, Spring MVC, Spring Security (JWT, OAuth2), Hibernate, JPA, Spring Data JPA
Frontend Technologies	React.js(18-19), Angular(18), HTML5, CSS3, JSP, Bootstrap, JavaScript
Databases	MySQL, PostgreSQL
DevOps & Tools	Git, GitHub, SVN, Jenkins, Docker, Maven
Testing Tools	JUnit, Mockito, API Testing (Postman)
Cloud Platforms	AWS (EC2, S3, RDS)
Other Technologies	Quartz Scheduler, FFmpeg, JSON, Microservices, Linux/Ubuntu

PROFESSIONAL EXPERIENCE

Ayotta Infotech Pvt Ltd – Bengaluru, India

Software Engineer | 05/2021 – 03/2026

Technology company specializing in scalable web application development

Tech Stack: Java, Spring Boot, Spring Security, Spring Data JPA, MySQL, AWS, Quartz Scheduler, FFmpeg, React.js, Docker

- Designed and developed **scalable microservices** serving **20,000+ daily active users**.
 - Implemented **JWT-based authentication and role-based authorization** for over 5,000 users.
 - Optimized MySQL schemas, indexes, and queries, achieving **35% performance improvement**.
 - Integrated **React, Angular frontend with Spring Boot REST APIs** for real-time data updates
 - Automated video encoding, synchronization, and recovery workflows using **Quartz Scheduler and Shell scripts**, reducing manual intervention by 50%.
 - Integrated **AI-based anomaly detection and system health monitoring**, reducing downtime by 30%.
-

INFOCON International Pvt Ltd – Bengaluru

Process Associate | 02/2018 – 01/2021

- Managed and reviewed global customer requests using JIRA and Oracle CRM service ticketing systems, ensuring timely resolution and compliance with SLA standards.
- Performed data validation, sanitization checks, and quality analysis on citations, publications, and author statistical data within Scopus, an abstract and citation database product of Elsevier, ensuring accuracy and data integrity.
- Collaborated with cross-functional teams to resolve process-related issues, conduct quality audits, and improve operational efficiency and turnaround time.

PROJECTS

Classroom Video Management System

- 05/2023 – 03/2026

Tech Stack: Java, Spring Boot, Quartz Scheduler, FFmpeg, AWS, JWT, React.js, Docker, MySQL

- Engineered an **end-to-end video capture, encoding, and streaming system**.
- Implemented **timetable-driven automated video recording** for 50+ classroom cameras.
- Developed a **React-based web dashboard** for **live/recorded sessions, scheduling, and monitoring**.
- Achieved **99%+ system uptime** through fault-tolerant scheduling and recovery mechanisms.
- Integrated FFmpeg for **concurrent video stream processing**.
- Designed **hybrid storage for MP4 recordings using local disk** for capture and **object storage (MinIO/S3)** for scalable persistence.
- Deployed services in **Dockerized environments** with Jenkins-driven CI/CD.

PESU Academy (Unified academic management platform)

- 05/2021 – 03/2026

Tech Stack: Java, Spring MVC, Angular, Hibernate, REST APIs, MySQL, AWS

- Developed and enhanced modules including **Online Examination, Digital Evaluation, and Academic Activities**.
- Designed a **multi-layered MVC architecture (Controller–Service–DAO)**.
- Built optimized REST APIs for **real-time inter-departmental data synchronization** and dynamic and responsive user interfaces using **Angular**, improving user experience for students, faculty, and administrators.
- Automated academic workflows, reducing administrative workload by **40%**.
- Optimized database queries and schema design using **Hibernate and MySQL**, improving response time and reducing system latency.
- Deployed and maintained services on **AWS infrastructure**.

EDUCATION

BMS College for Women- Bengaluru - Bachelor of Computer Applications (BCA) | 2014 – 2017
